

## Base plate

## **INSPECTION CHECKLIST**

## SI-MB4 Parts List

Base Unit	(1) Base plate	Α
	(4) Lower support rods	В
	(4) Upper support rods	C
	(1) Upper horizontal stabilizer bar	D
	(1) Lower horizontal stabilizer bar	E
Reservoirs	(4) Buffer reservoir assemblies include:	F
	Buffer reservoir	
	Reservoir clamp	
	Tubing	
	(Units are labeled 1-4. Unit 1 has aeration manifold built in the clamp and a	
	water flow meter attached. Tubing length varies on each unit depending on	
	its position in they system.)	
Tissue Chambers	(4) Tissue chamber assemblies include:	G
	Tissue chamber	
	Tissue chamber clamp	
Ţ	Tissue holder with oxygenation frit	
<b>e</b>	Tubing	
nss	(Units are labeled 1-4. The length of tubing attached to each assembly varies	
Ë	depending on the position of the assembly. The clamp on chamber 4 has two	
	aeration outlets on the right side.)	
	(4) Transducer positioners	H .
